

## **JIM JORDAN'S SHOTGUN CLAYS INSTRUCTION & TRAINING TOPICS**

*I will make your shotgun shooting success REPEATABLE and teach each client how to SELF-DIAGNOSE their missed shots.*

*I will maximize each lesson with dependable fundamentals, while developing efficiency of your gun movement, and increase visual and mental focus into a technique that works with increased repeatable success.*

*I will articulate, demonstrate, and provide education so that you may become a more successful participant in the fantastic sport of shotgun clay shooting by examining these shotgun shooting subjects:*

- *Shotgun clay shooting safety and etiquette.*
  - *Develop a system to determine target flight path.*
  - *Provide guidance and assistance for a shotgun purchase.*
  - *Proper operation of automatic, pump, side by side or over-under shotguns.*
  - *How an ideal gun stance improves accuracy.*
  - *Test for eye dominance.*
  - *Learn which gun mount is best for you.*
  - *Why a correct gun fit is important?*
- 
- *Analyze current technique to determine what additional adjustments to your current shooting system will improve your consistency.*
  - *Complete analysis of pros & cons for the 5 basic shotgun mount positions.*
  - *Examination of the 8 most common sight pictures or leads the clay shooters use and determine which ones work best for you.*
  - *Provide assurance that your “shotgun shoots where you are looking.”*
  - *Provide shotgun patterning board analysis.*
- 
- *Teach concept of how REPEATABLE SUCCESS is achieved by using a TWO-PART STRUCTURED APPROACH which always includes a “conscious pre-shot plan” and how to move into the “sub-conscious.”*
    - *The “conscious level” always includes what you need to know before you call for the target.*
    - *The “sub-conscious level” includes what actions are needed after the target is released.*
  - *Educate shotgun shooters how “soft focus” moves to “hard focus” for increased hits.*
  - *Create a system for “deliberate perfect practice” to “build skills” for singles, report pairs, following pairs, and true pairs for all target presentations.*
  - *How clay target shooting can increase hits on wild bird hunting.*
